Slide 1: For all the children who have enjoyed The Katie Morag adventures. The Isle of Coll Part 1. What is Coll? How should you get there? Where is Coll? How should you get there?

Slide 2: Welcome to the Isle of Coll. Coll is an island. What does island mean? An island is a piece of land surrounded by water. We live on an island. They are very popular places for people to visit because they have beautiful landscapes and scenery.

Slide 3: Where is Coll? How should you get there? First you need to know where Scotland is and then find the Western Isles on the map.

Slide 4: Coll is an island in the Hebrides. The only way to get there is by ferry or by helicopter from the mainland.

Slide 5: Taking the Ferry from Oban. The ferry takes about 22 hours to get to the island, but you can take an air ferry to the island if you have a car and a dog. There are two routes you could take to get to the island. The ferry from Oban to Coll is the most popular route.

Slide 6: There are many different types of houses on the island. The traditional houses are made of stone and have thatched roofs. The modern houses are made of brick and have tiled roofs.

Slide 7: This is the Collishion MacAlpine Ferry 'Land of the Isles' by the jetty in Arisaig.

Slide 8: The ferry takes about 22 hours to get to the island, but you can take an air ferry to the island if you have a car and a dog. There are two routes you could take to get to the island. The ferry from Oban to Coll is the most popular route.
