

Cat and Mouse

A cat **goes** out to find a mouse.

He **creeps** around and **looks** hard.

The mouse **is** behind a tree.

She **does** not know that the cat **is** looking for her.

The cat **crawls** up to the mouse.

He **jumps** on her but the mouse **runs** away.

The mouse **hides** by a log. She **tries** to reach the house but she **falls** down. Then the cat **arrives** and he **catches** the mouse. The mouse **squeaks** so much that the cat **feels** sorry for it and **lets** it go!
