Listen to the fire and feel its warmth
Magical flickering flames light up the night
The night is alive with a hundred sights and sounds
The noise of the crackling fire
And curling flames creeping towards the sky
Destined to burn.

crackling

The whoosh and swoop
As it shoots into the sky
Bursting into a cluster
Bright against the dark

billowing

The whizz and swirl of the sparks
Turning upon its pole,
Spinning and whirling, spiralling and twirling
Round and round with a hiss

dancing brightly

Beautiful cascades of sparks
Silver fountain,
Bright colours,
And the gentle flow

rockets screaming

light up the sky

Sharp crackling sound of the jigsaws
Zigzagging its way across the sky
Spiky and sudden
This way and that

fire roaring

And over all the sound of children
Calling, laughing, cheering, enjoying.
